Career Objective

Motivated and detail-oriented B.Tech student currently pursuing Artificial Intelligence and Data Science with strong interest in software development, web technologies, and problem solving. Seeking internship or entry-level opportunities to enhance technical skills and gain practical industry experience.

Education

Bachelor of Technology (B.Tech)

QIS College of Engineering and Technology

Stream: Artificial Intelligence and Data Science

Currently Pursuing – 2nd Year

CGPA: 7.1

Intermediate (MPC)

Adarsa Junior College

Percentage: 87.6%

SSC

Adarsa High school

Percentage: 90.6%

Technical Skills

- Programming Languages: Python, Java, C
- Web Technologies: HTML, CSS,

- Database: MySQL
- Tools: Android studio, VS Code, Aurdino IDE
- Core Concepts: Data Structures, OOPs, DBMS

Certifications

CSS Certification - Hacker Rank

Python certification - coding brains

Academic Projects

Smart Environmental system using Machine Learning

Developed a Smart Environmental Monitoring System using AI, Machine Learning, and IoT technologies.

Designed the system to monitor environmental parameters such as temperature, humidity, air quality, and gas levels using sensors.

Implemented real-time data collection, processing, and prediction for environmental condition analysis.

Gained hands-on experience in Machine Learning, IoT, sensor integration, microcontrollers, and embedded system applications.

Personal Portfolio Website

- Developed a personal portfolio website to showcase projects, skills, and certifications.
- Built using HTML, CSS, and JavaScript with responsive design.

Languages

- English
- Telugu
